VOTING DISTRICT CHANGE NOTIFICATION

On February 10, the Clark County Elections Department will begin mailing new voter registration identification cards to all registered voters in Clark County indicating the current commissioner districts and future councilor districts.

Voters approved a Home Rule Charter in the November 4, 2014, general election. As a result, the three-member Board of County Commissioners is expanding to a five-member county council, and the current three commissioner districts are being replaced by four new council districts.

The three former county commissioners are now referred to as councilmembers. In this year’s primary and general elections, voters will select two additional council members to take office January 1, 2016. The member who will serve as council chair will be elected by voters countywide, and the other councilmember will be elected from the new District 2.

All of these changes to the voter’s districts have now been implemented and the new registration cards are being sent, as provided by state law, along with a letter explaining the reason for the new card.

If a voter has any questions they may contact the County Elections Department by calling 360-397-2345 or by emailing elections@clark.wa.gov.
